Notice of Application for Basic Assessment
Notice is hereby given that an application for environmental authorization in terms of the Environmental Impact Assessment Regulations, 2010 (Regulations in terms of Chapter 5 of the National Environmental Management Act, 1998, as amended) has been lodged with the Department Environmental Affairs.

Umgeni Water in partnership with Eskom Holding S O C Ltd is applying for Environmental Authorisation for the construction of the new 132/11kV Matthew Substation and associated 6 kilometre double circuit 132kV powerline in Mandeni, KwaZulu Natal. Kerry Seppings Environmental Management Specialists have been appointed as independent environmental consultants to undertake the required EIA process. The proposed substation site is situated within iLembe District Municipality. The co-ordinates of the site are 29°10'5.29"S and 31°22'51.07"E.

All interested and affected parties (I&APs) are invited to register with the contact persons below, representations with respect to this application may be made by phone, fax or e-mail. Please note that in order to continue to receive information regarding this project, you must register as an I&AP. A meeting may be held if requested. The time and venue of the meeting will be confirmed with registered I&APs.

BASIC ASSESSMENT APPLICATION FOR THE PROPOSED NDUMO-GEZISA 132 KV POWER LINES NEAS REF: DEA/EIA/0001480/2012 AND DEA REF: 14/12/16/3/3/1/710

At present the 22kV networks emanating from the existing Makhatini and Nondabuya 132/22kV substations are highly constrained in terms of capacity and cannot cater for additional electrification load growth on the Makhatini Flats. As part of the upgrading of supply to Ndumo, Mbazwana and Manguzi a **132kV Ndumo-Gezisa power line** needs to be constructed linking the proposed Ndumo 132/22kV substation near Makhane's Drift and the proposed Gezisa 132/22kV substation near Manguzi Town.

Environmental authorisation from the Department of Environmental Affairs (DEA) in terms of the National Environmental Management Act (No 107 of 1998), and Government Notice R 543 to 546 (June 2010) is required for this activity to commence.

BASIC ASSESSMENT APPLICATION FOR THE PROPOSED NDUMO-GEZISA 132 KV POWER LINES

NEAS REF: DEA/EIA/0001480/2012 AND DEA REF: 14/12/16/3/3/1710

At present the 22kV networks emanating from the existing Makhathini and Nondabuya 132/22kV substations are highly constrained in terms of capacity and cannot cater for additional electrification load growth on the Makhathini Flats. As part of the upgrading of supply to Ndumo, Mbazwana and Manguzi a 132kV Ndumo-Gezisa power line needs to be constructed linking the proposed Ndumo 132/22kV substation near Makhane's Drift and the proposed Gezisa 132/22kV substation near Manguzi Town.

Environmental authorisation from the Department of Environmental Affairs (DEA) in terms of the National Environmental Management Act (No 107 of 1998), and Government Notice R 543 to 546 (June 2010) is required for this activity to commence.
